## **From the Editor**

Greetings Everyone,

In case anyone noticed, there was no newsletter last quarter. Personal issues came up and I found myself unable to complete it. My apologies for any inconvenience this caused.

I wish to thank the people who contributed to this issue. From our new Seneschal, Master John Macandrew we received the front page photo of Aline, Miranda and himself, and an introduction. Her Ladyship Doireann submitted a wonderful photo documentary on the creation of her Norse Tent.

Hopefully in the future they will not only inspire others to contribute to the newsletter, but they will also send me more stuff to print. If anyone is interested in doing something for a future Hartbeat, but would like more information, please contact me and I will do my best to answer all questions

YIS, Elizabeth Chatfeld

## Hartwood Council Meeting - June 24, 2012

Attending in person: John, Allison/Aline, Linda/Halima, Danielle/Cunegonda  
Attending by phone/skype: Valerie/Elspeth, Jean/Elizabeth, Julie/Scathach

Called to order 4:05 p.m.

Jean/Elizabeth reads last council's minutes.-- there was a typo regarding archery practices  
-- 'Saturday' should read 'Sunday' Allison moves to accept minutes; John seconds.

John reads officer's reports:

\* MoS report from Lee/Thorfinn-- Practice and Attendance: 6:30pm Monday at 421 Calverley \pl.

Average attendance has been holding at around 14 fighters. We have been getting a few fighters down from Seagirt every second week. They have been helping us with our fighting and getting some of us carded. There have been 4 fighters carded this month.

Equipment: The iron key up to date has swollen due to the generosity of folks playing hear and some of the Seagirtians detonation of 3 new helmets and another donated from Fjordland. I will list the full iron key at length in my next report or at the earliest date possible there is a great deal of it and a need a day off to do it and a couple of volunteers. But estimated we probably have 4 full sets and many various bits and pieces.-- John adds they are beginning Rapier as well, thanks to our Seagirtian friends coming up to teach.

\* Chatelaine report from Valerie/Elspeth - I'm fairly new as well but when I asked around re. Gold Key, what I learned is that there is virtually nothing.

I was told there was an attempt some years ago to standardize the old ratty Gold Key, so the old stuff was purged in preparation for step two - the making of the new stuff. However step two did not happen. Hence: no Gold Key.

I have a few hand-me-down costumes which were recently donated and some other gear that I'm holding ... pending some decision on what we should do with it.

A few months back, after determining there was no Gold Key, I was able to score a large bag of fabric (drapes etc.) and a box of new sheets from Freecycle, which would provide all the fabric we could want to rebuild Gold Key. I also have the framework for a changing booth for camping events and a little portable stand - scored at ReStore for \$2 :-)) - to hold the costumes. I've also acquired a large suitcase and a trunk to transport them to events.

The last Chatelaine thing I did was send around an invitation to all the people on my newbie/potential member list inviting them to the TUTR in Port Alberni. I also edited and sent around the photos taken at the demo in February (we set up a photo booth and invited those attending to put on costumes and get their photos taken). With the photos, I included an invitation to register for the TUTR.

Prior to that I created some mini-business card brochures for distribution and had 1,000 of them printed. They have been distributed to each area but probably need replenishing. We've also just begun talking about revising the website to make it more mundane friendly, with a section for new people.

I imagine the shire does need functioning Gold Key ASAP so I'll see if I can break free some time by the end of this month to build at least some costumes. I am totally committed to Regionals this weekend

and will be "volunteering" to work next weekend to get ready for a company conference, but hopefully I will be able to work on Gold Key the following weekend.

\* A&S report from Jenniffer/Cecille North Hartwood A&S:

May: 30 - social / fingerloop braiding class #1. John, Aline, Miranda, Aleyn, Anicia, Randy, (his lady?), Cecille, Joye

June: 6th - no A&S: Armada planning meeting instead. John, Aline, Doireann, Halima, Cecille, Miranda, Joye

13th - demo practice @ Halima's! Charles, Halima, John, Aline, Miranda, Cecille, Aleyn, (Aleyn's daughter - SCA name?)

20th - social / fingerloop braiding class #2. John, Aline, Miranda, Halima, Cecille, Kathy, Joye

27th - has not yet happened

West Hartwood A&S:

- no responses to call for coordinator for the area.

I'm going to continue to post the position as "open" 1-2 times / month. When interest arises, someone will step up.

South Hartwood A&S:

- will confess that I haven't checked in this month.

Overall:

Pennons:

- completed: ~ 15 each of yellow and white which are ready to use. ~15 green have been given to Fjorlief with instructions to paint the Hartwood device on one side. ~15 black ones are ready for people to paint \*registered\* arms on one side for colour and pagentry for our halls and events.

More supplies are needed to carry this project forward. Additional fabric is needed to make more pennons and bags to store them in. Fabric paint/medium is needed. Rope is needed. Timeline is flexible and at the Council's pleasure. Between \$50 and \$100 should get a good start on it all.

Deputy:

- to date, I have been working my way through the list of "people who do not already have jobs" and been turned down by 4 candidates. Starting to think that bribery may be necessary...

\* Family Activities report from Sofja/Joye - It has been a fairly uneventful season for the FA community. I accompanied Cecille to Coronet and helped represent Hartwood there, and I have been trying to think of activities for Armada.

\* Archery report from Allison/Aline

\* Exchequer report from Linda/Halima

-- \$2,208.56 in the regular account

-- \$5.07 in shares

-- No update re: gold key; expect a report next month

-- Danielle/Cunegonda is the new exchequer deputy

-- Linda/Halima needs the iron key information/stock list as well;

Exchequer must track all assets, including solid ones.

Valerie/Elspeth offers: Gold Key was given new sheets. Do we want to purchase sale fabric?

-- Decided that no, we should assess current stock and needs before buying anything further for Gold Key.

-- John adds: new Gold Key garb should be a group effort, not just one person's burden.

\* Seneschal's report from John

-- We have two officer positions open:

---- Herald has had no applicants

---- Chamberlain, as a proper office (not a deputy), must also be

advertised as open and go through an application process.

#### Events:

\* Yule-- Julie/Scathach must step back from White Court due to family issues. We will try to find a new event Steward in the Nanaimo area, but at some point we'll have to look outside the region if no one steps forward. A deadline will be set. (See comment below under Scathach's 'new business' for Elspeth's offer to take this up.)

\* Armada -- Event copy was sent to the Crier to fulfill level 1 requirements (Jenniffer/Cecille); also on An Tir Calendar webpage; flyers distributed at Coronet.

-- Fighters will have the main field from dawn until 2 pm on Saturday.

event copy is off to Crier to comply with level 1 requirements (don't have confirmation yet)

- fully armoured fighters can have the main field from when they get up until 2:00pm for fighting.

- Sgain is helping construct the battle scenarios.

- ditto on timing for the archery range

- we'll get up a better schedule and info on the battles / boat race specifications

-- John & Allison/Aline are handling archery

John: We've been really pushing the Armada; will take event copy to the fight practice on Monday to encourage the new fighters there to attend.

#### New Business:

\* Jean/Elizabeth: Newsletter will be out by the end of the month

-- Please send updated list of officers and deputies.

-- John adds: practices should be published in the newsletter.

-- Allison/Aline adds: current practice information is up on the website.

-- Linda/Halima adds: Last meetings minutes are required to switch the signing officers; Jean/Elizabeth sent the minutes immediately.

\* Julie/Scathach: Due to an inheritance of tools, they'll have no space for Hartwood stores soon which will need a new home. Stores contain a miscellany of Gold Key,

cutlery, the listfield, etc.

-- Valerie/Elspeth will take the Gold Key

-- Linda/Halima requests an itemized list as they're packed

-- Valerie/Elspeth adds: May be able to take up January White Court event after August 1st.

\* Allison/Aline: Saw a longbow that was both right and left handed; would be good for the shire to have its own loaner gear. Will bring quote for cost to next council.

\* John: Pleased to see the fighters in Nanaimo; it's good to go out to the practice just to meet them. Continue to push the Armada, as it will be a great place for us all to meet up.

\* Valerie/Elspeth: Chatelaine has had a donation of fencing gear and camping equipment

-- Fencing gear should go to Iron Key

-- Cooking stuff will go to a silent auction at the Armada

No further business, meeting called at 4:35.

Next meeting will be the end of July; Seneschal will send an email invitation.

(Editor's Note: The following was given to me in March 2012 and was to have gone in the April newsletter.)

### **To the good gentles of Hartwood, greetings.**

It is hard to imagine that a short five months ago my family was busy unpacking our belongings and trying best not to get lost while finding new doctors, new grocery stores, new schools, and new friends, but in very quick order we managed. The mundane items were tackled by priority and the friends and the SCA were right there where we needed them, not that the residents of Hartwood were any strangers to us.

For many years we have interacted with the people of Hartwood: Zoran, Halima and Charles, Anicia and Aleyn were regular friends while we were in False Isle; all the good people we met when we attended Raven's War a few years back; and then of course all the folk who have been traveling to the Principality events, Marina, Kjartan, Cecille, as well as the names mentioned above.

Since we knew the move was coming we have made the extra effort to meet with the residents of Hartwood; first at Principality A&S, and then Tir Righ September Coronet, and once we were actually moved in, at councils, A&S nights, White Court, Pas d'Arms, and Daffodil. What and who we have seen to date has been nothing short of amazing. I have been especially impressed with the group projects presented at court and the excellent entrants to Principality and Kingdom A&S.

And now an introduction:

I have been in the SCA for 23 years, my wife Aline approximately 10, and our daughter Miranda since she was born. The majority of my time has been engaged in archery, 12 years as Archery Officer and 22 years teaching, but I have also served as A&S Officer, as well as Bardic and A&S Champion of Li-

ons Gate. I am a service geek, as noted by my Pelican, and I play this game for fun. I have done a fair bit of event stewarding and you will usually find me and my family at events helping with set up but not so often tear down as we will be practical and get our little one home to bed.

My thoughts for the next two years:

I will work extremely hard with the officers currently in place as they have the experience and knowledge of the Shire; knowledge I will be drawing in as quickly as possible to help my transition into the office. I would like to see regular newsletter input from all our groups, both geographically and by interest. Officer's reports; I would like to see lots of name dropping. Let's make sure we put in who did what and where. This documentation makes life so much simpler when it comes time to write recommendations. As I keep mentioning, we have some great people in Hartwood and they need to be recognized both at Principality and Kingdom levels.

I would like to see all officers come up with a deputy. This allows us both coverage for when life interferes as well as shows a depth support which is important.

I understand we have some issues to work out as we tackle the distances between our hubs, but speaking as one who drove an hour each way twice a week for two years so I could get to archery practice I can guarantee we can make it work if we deem it important enough.

Lastly, I would like to applaud those working on our new farspeaker (or whatever we end up calling it), as ease of communication will always make our burdens easier to deal with. Let's start talking.

I look forward to seeing everyone at TUTR.

Master John Macandrew, OP  
Seneschal Hartwood

## Adventures in Building a Norse Tent

### Part I – the Frame

This is not a how-to article, but a short chronicle of my adventure, which I hope will encourage you to create a medieval tent or pavilion of your own.

I have long wanted to make a period pavilion, specifically a free-standing one. I made a miniature Norse tent for my toddler son, many years ago, based on the instructions in the Known World Handbook. In more recent years, HL Aleya, HL Anicia, and Lady Margarita built a lovely spoked bell pavilion, and I was further encouraged. They graciously shared with all of us

the knowledge and experience gained from their own adventure, and Aleyn even offered his woodworking skills to help make the hub, if I chose to go that route. When my modern tent met it's end, I decided that this was it. I would finally replace it with a period tent. I next had to put thought into what I needed and wanted, and make a firm decision about what kind of tent I would make for myself.

When choosing the style of your pavilion or tent, there are many factors to consider:

- Budget
- Skills & tools available
- How will you transport your tent?
- Size needs
- Persona (it may not always be desired or practical to necessarily stay within your persona)
- Are guy-lines problematic for you?
- Ease of set up. Do you need to be able to set it up yourself?

For me, a Norse tent fit all of my needs and preferences, except that I had a Gaelic persona. However, that was slowly changing, and I soon became a Hiberno Norse woman, happily joining my Gaelic side with a new Norse side.

That decision made, it was time to get down to business. I started in the obvious place, the internet. There are a more than a few good articles out there, on various types of portable medieval shelters. Images too, are a good inspiration. I read a few articles, chose the two that I was most comfortable with, and read them several times, making notes and sketches. I changed some things, to suit my desired dimensions, skills (or lack thereof) and available tools.

Once I had formulated a plan, I laid out the steps on numbered index cards, to help me stay on track. I also spoke with people who had built and/or purchased Norse tents, to be sure that the 2' X 3' I was using as a ridgepole and side poles was adequate for a 12' long tent. Much to my relief, those who had used it before me were quite pleased with how well it has performed for them over the years.

I challenged myself to buy as many of the supplies for my project as possible at my workplace, The Home Depot. In the end, I only bought the thread and ties elsewhere. Large pieces of canvas drop-cloth from the paint department would become my tent fabric.

What follows is a series of photos and descriptions, of the steps I took to make my frame. If you find yourself thinking, "I could have done this better," or "I would have done that differently," then perhaps you should! I would dearly love to see the Hartwood encampments abounding with period pavilions.

.....

The pieces of 2" X 3" that will become my ridgepole and side poles, marked out for a rough cut. The idea of a Norse tent is that the front and back of the frame are made from an equilateral triangle, which is held together by the ridgepole and side poles. The holes at the ends of the uprights and ground brace act as tenons, while the ends of the poles act as mortises. You can see a close-up of how this works in the last photo. These will be the mortised ends.

Tony did the rough cuts of the tenons for me.

The mortise and tenon fittings will stay snug with the help of pegs. I drilled the holes for the pegs before rounding out the tenons, so that the drill bit wouldn't slip on the curved surface.

Here, I am roughing out the corners with a jigsaw, before getting to work with my sander and some coarse sandpaper, to round out the tenon.

Roughed out and waiting to be refined with a sander.

At this point, the tenons are sanded fairly round, and fit nicely into the mortises. I am pleased!

A before-and-after of a pair of tenons.

In order to fit the 12' 10" poles into my car, they had to be made in two pieces each. So, I needed a sturdy method of joining the two pieces together in order to raise the tent, once on-site. I have cut a 6' length of angle iron into six pieces, to create partial sleeves. A sleeve would have been good, but was beyond my area of skill.

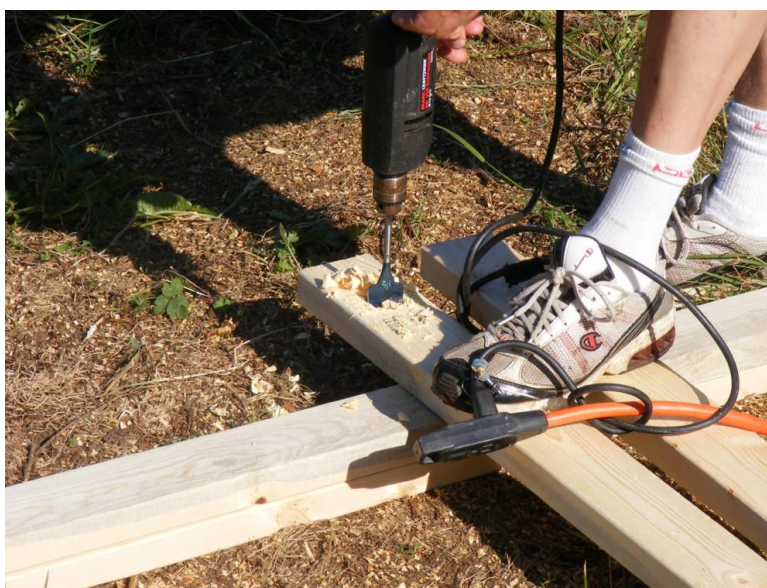

The use of carriage bolts with two pieces of angle iron for each join made a sturdy frame. But, for my next frame, I will use four longer pieces of flat iron on each join, and more carriage bolts. With the angle iron on 2" X 3", the holes could not be centered, and therefore not perfectly matched up with the opposite side.

With our very old drill, the 1 1/2" holes at the end of each upright and ground brace were a bit tough to drill, so Tony did that part for me.

The frame is almost complete at this point. I have put the end pieces together, holding them in place with pieces of cedar branches, so that I can mark out where the cuts need to be made, for the final step.

It's as simple as this. I just mark where the cuts need to be, along the ground braces, above and below. I will leave the tops of the uprights uncut for now. Eventually, they will have carved critter heads on them. Cutting where I have marked, at the ends of the uprights and ground brace will be my final step.

The finished frame. I'm happy with the size, and with how easily I was able to put it up and take it down by myself. Of course, once the fabric is added, it won't be as easy, but I do believe it will still be doable.

Supervisor inspection. Approved!

I have enjoyed this journey, and look forward to using my new tent. His Lordship Kjartan has made me my first accessory – a Norse camp stool – and I am working on a cooler made from a six-board chest. My Norse encampment just gets Norser....

My adventure will continue in a future issue, with Part II – the Tent.
